Your license is subject to the following terms:

1. You don’t own copyright to this report.

2. Suggested Retail Price for this report: $9.97. You are not forced to comply with the "Suggested Retail Price" (SRP,) however we set a standard selling price and kindly ask you to adopt this price (or more). This helps to maintain the value of this report for the benefit of all customers.

3. You can sell this report with resale rights to your customers under the conditions described in your license. Your customers have the same rights as yours. **However, you must NOT distribute the sales page of this report.** The sales page should be distributed only when resellers will register their license by using the link below. Read on.

4. You CANNOT give away the report and/or the sales letter and/or images.

5. You CANNOT sell the report in auction sites, like eBay.com®, etc.

1. The Report

This is a challenge I accept from John Dealavera, my mentor to compile a Report.

“The 118 Most Useful Wordpress Plugins For Your Wordpress Blog”

I am a proud member of the TurboMembership. It all started after I posted a comment at the forum, the TurboCommunity about a Wordpress plugin which I think it’s valuable when setup a Wordpress blog initially.

John Delavera* knows that Wordpress is my favorite topic and I’ve been learning it. I’m still learning... We happen to share each other’s favorites the other day, and I ended up with a lists of important plugins.

Although I am not a Wordpress Guru myself, for sure now I have a collection of some important WP plugins that I don’t want to keep it to myself.

So here is the report of some important Wordpress plugins from John Delavera and mine. There is no secret that they are readily available on the Net.

However, John and I believe that we can save you some leg work and time to compile a list of important Wordpress Plugins for you.

When we always talk about SEO, he states that why not put up a nice keyword matching directory for your blog:

http://InternetMarketingTips.com/MarketingTips

http://HimMeetsHer.com/OnlineDatingService

A quote from David when I got the make over:

“I routinely see 'big name' blogs with SEO problems. Like H1 tags on the header, when it's usually best suited for articles. And missing metatags and poor title tags - great ways to add search engine targeting, but often NOT used well (And permalinks? Don't get me started!).

The problems are real:

after all, when a search engine sees

Brand this report

You can brand this report for an one time fee of $17.00 and earn:

a - 50% for each sale you generate to TurboMembership.com (recurring income)

I cannot stress much the importance of this membership. It offers you everything you need for creating, maintaining and running an online business. Plus, it offers you a business per se.

b - 50% for each sale when your customers brand this report too.

Pretty self-explanatory. If you got this report from an affiliate of mine, then s/he will get the credit once you brand this report. See how it works?

Are you ready? Click here and you can download your customization kit in some seconds.
