

How To Create a Viral Video Blog
Brought to you by Tim Carter
www.viralvideoblogging.com

This one hour video series will show you exactly how to set up your own viral video blog.

You will watch the videos in your browser. I suggest you watch them all the way through one time before you do anything. This will familiarize you with the system.

After you have done that you can download the Wordpress install file and begin.

You can watch the videos [HERE](#)

You can download the install file [HERE](#)

That is all you need. Watch the videos in stages the second time around and do as instructed.

Note.

The install command for Wordpress is
`yourdomain.com/wp-admin/install.php`

The video tells you that however it is not shown so I put it here to clarify the command.

Resource section.
